

EasyShelf

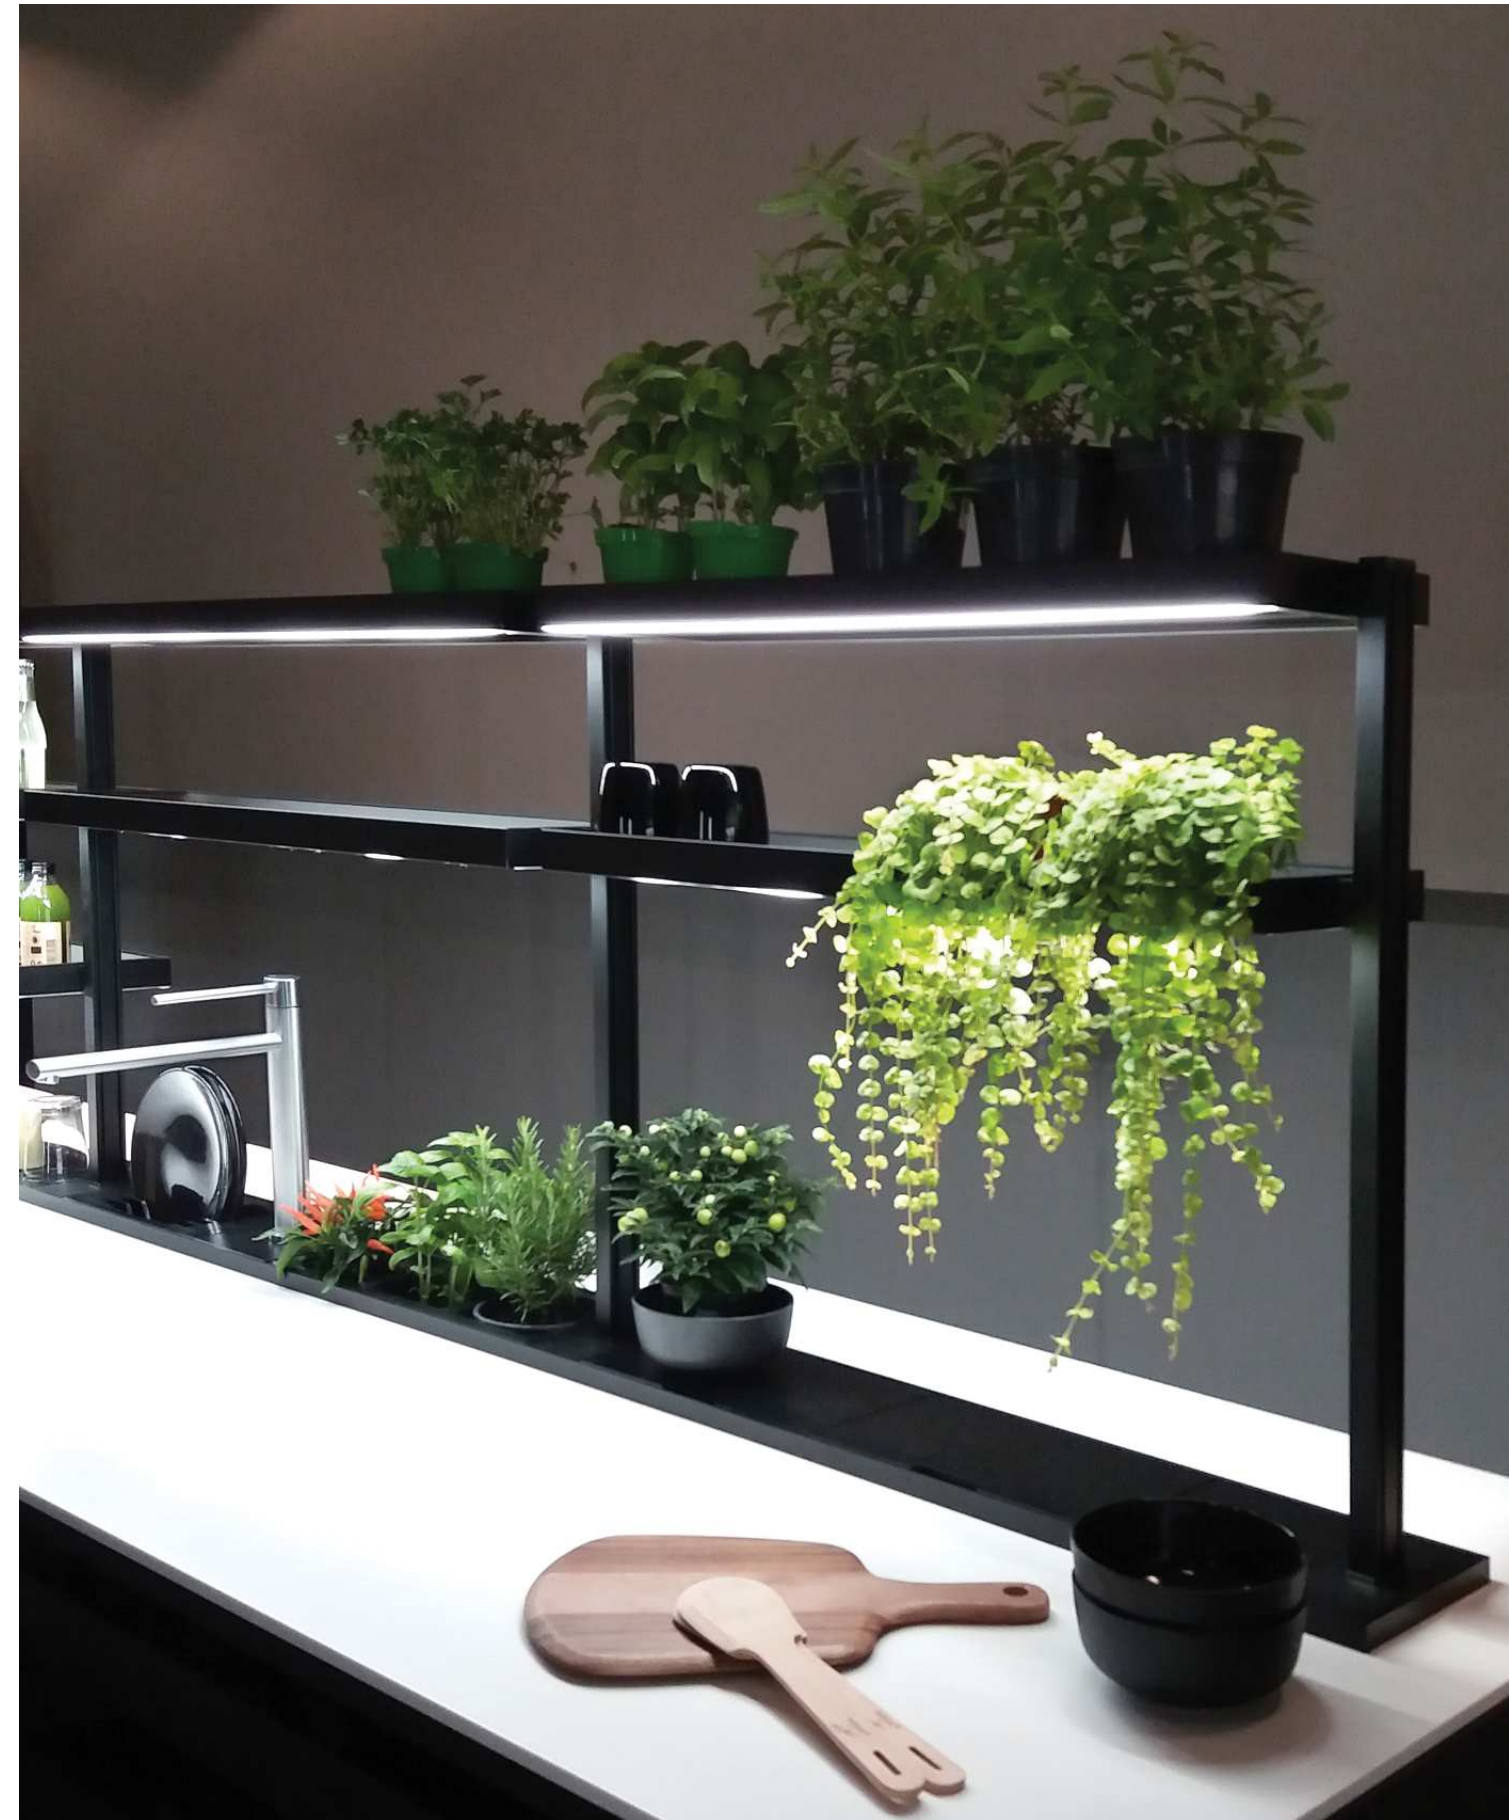

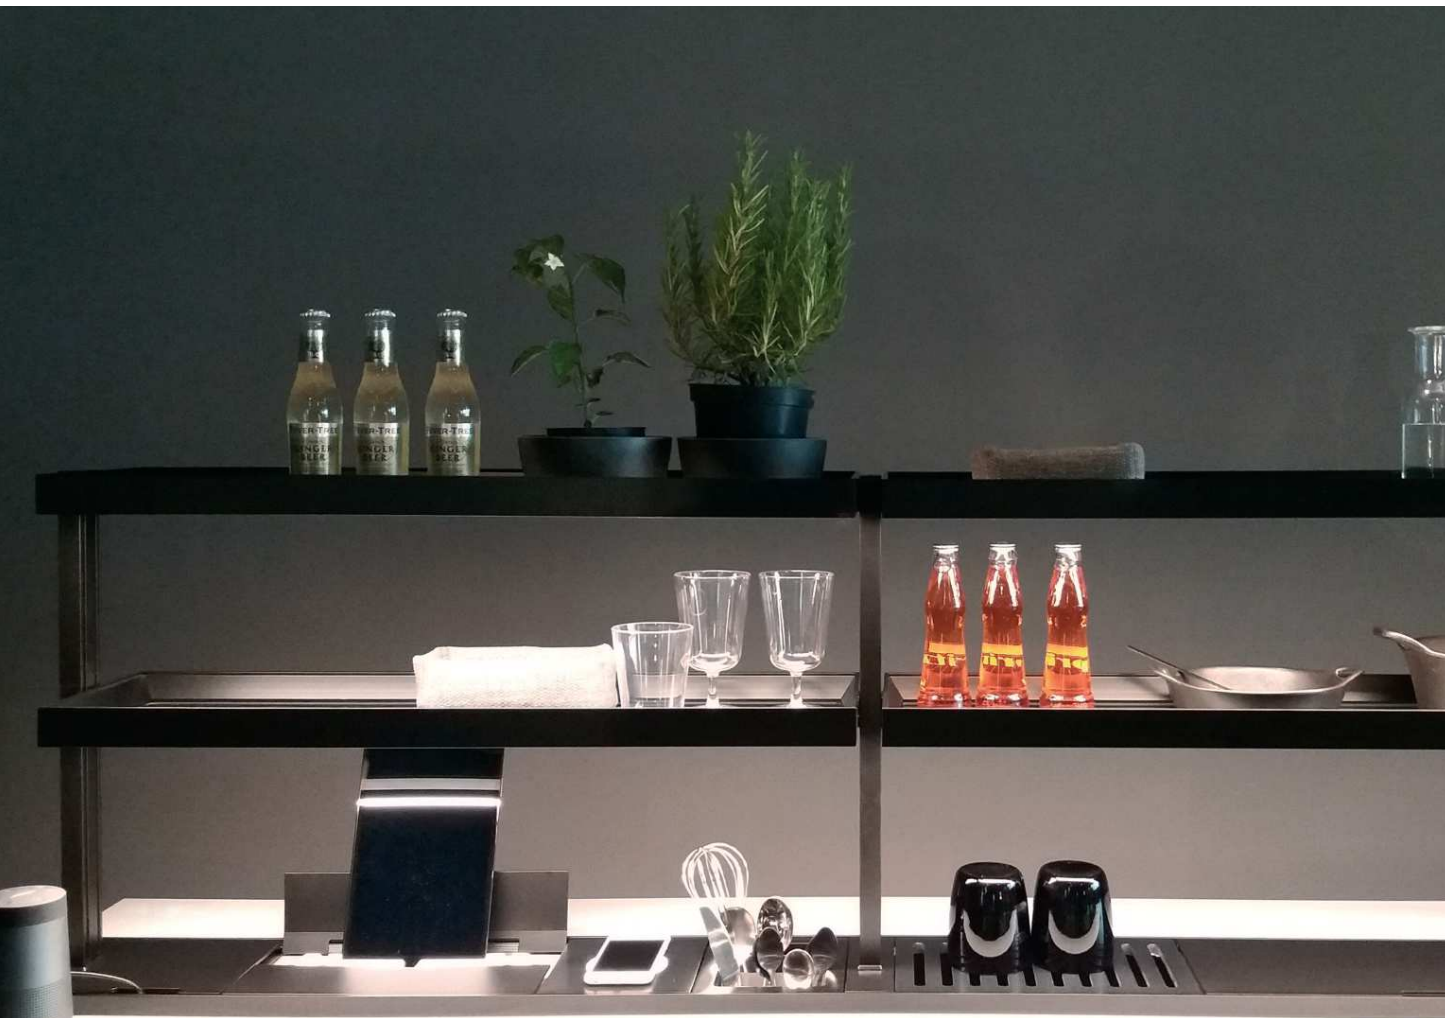

EasyShelf

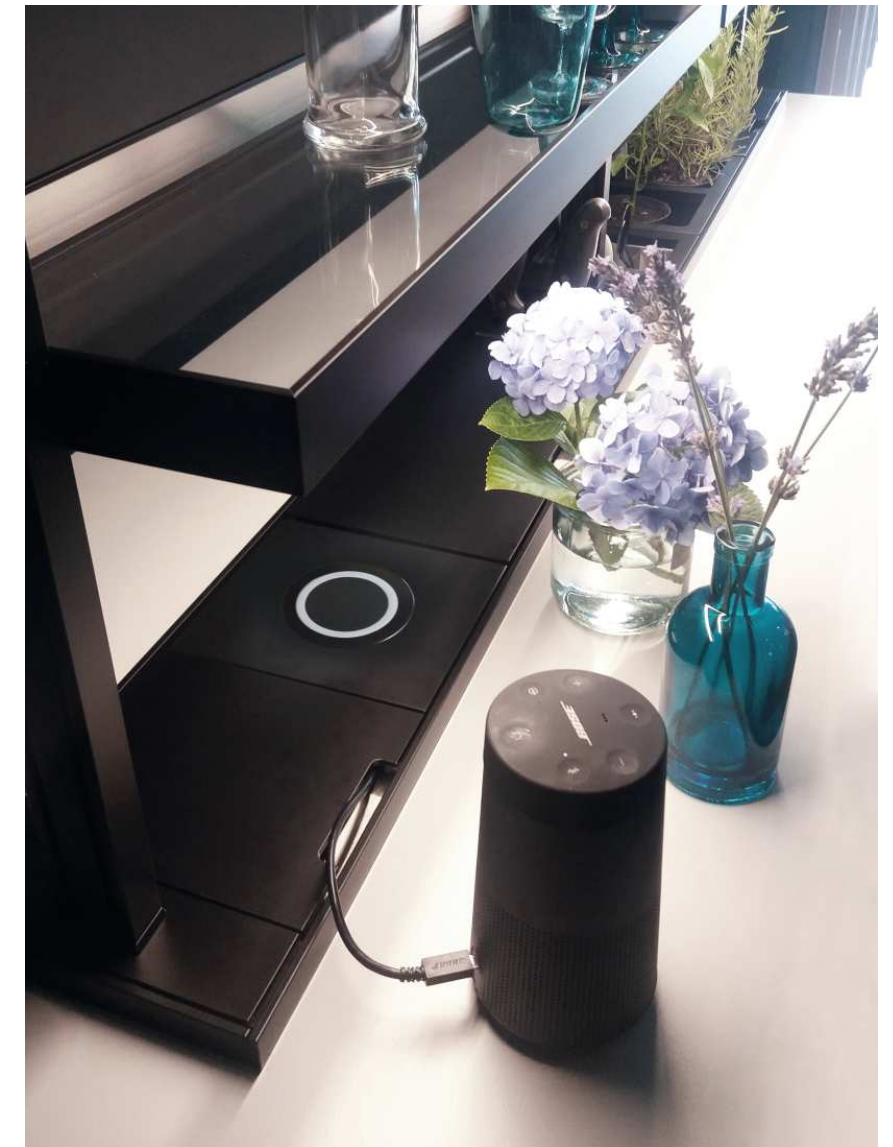

Sistema di mensole realizzato per essere applicato sui canali attrezzati EasyRack Kitchen.

Shelf system designed to be applied on EasyRack Kitchen equipped frames.

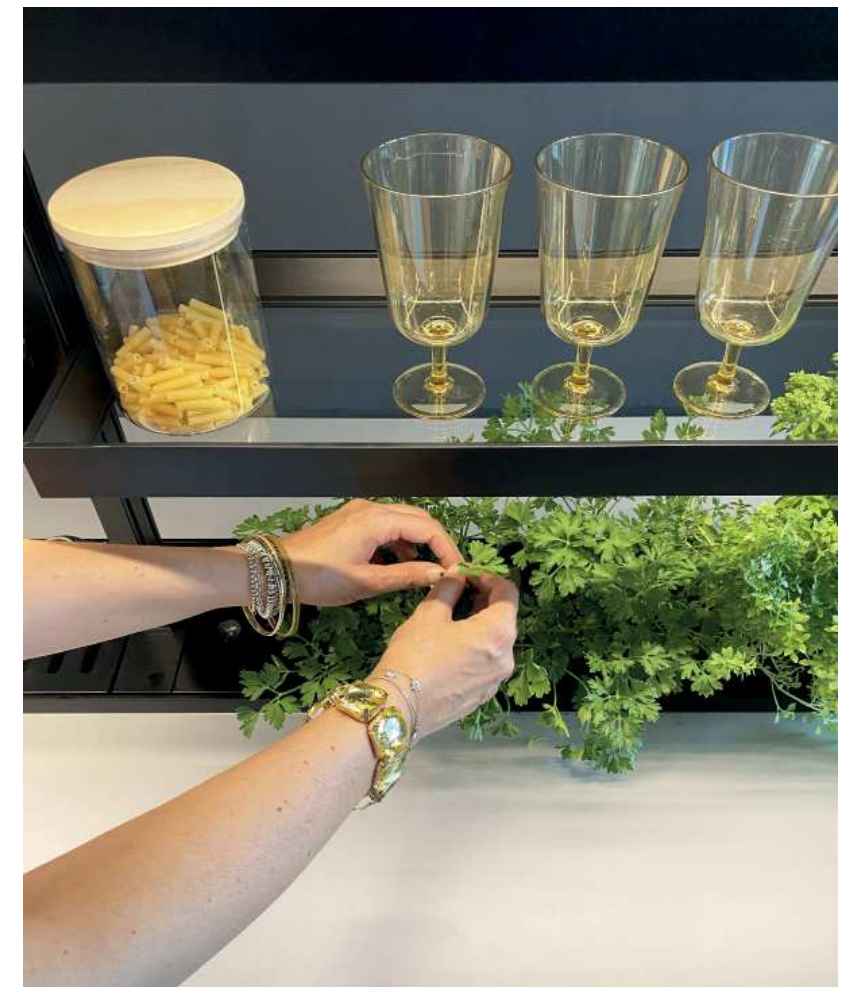

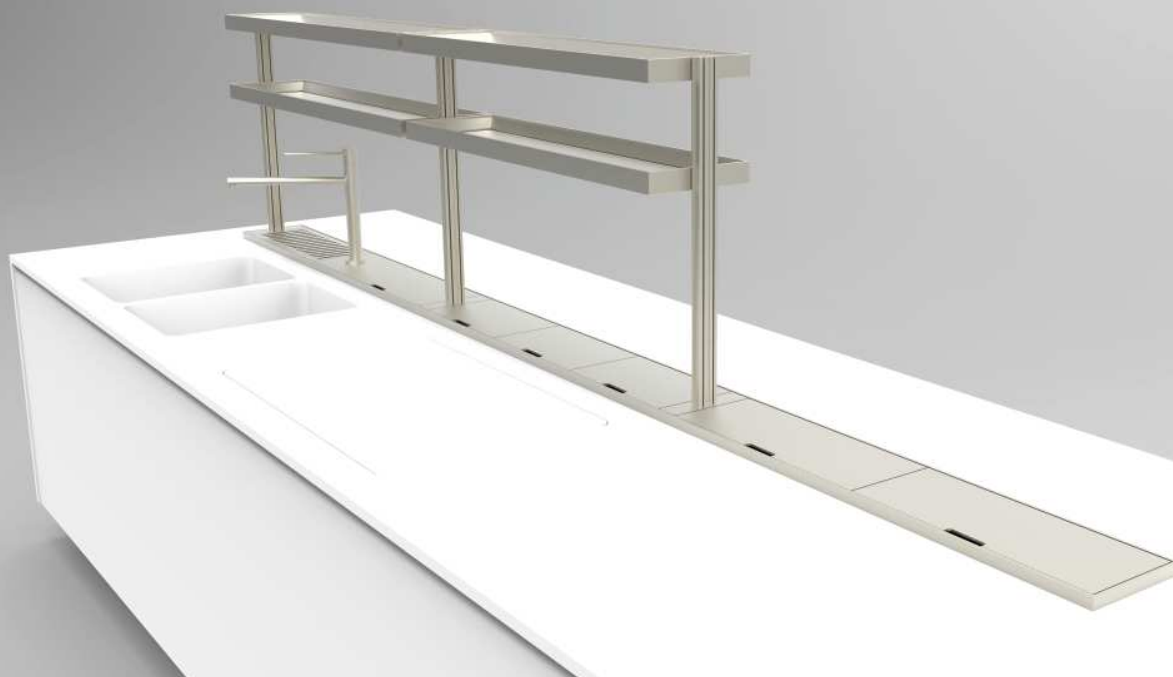

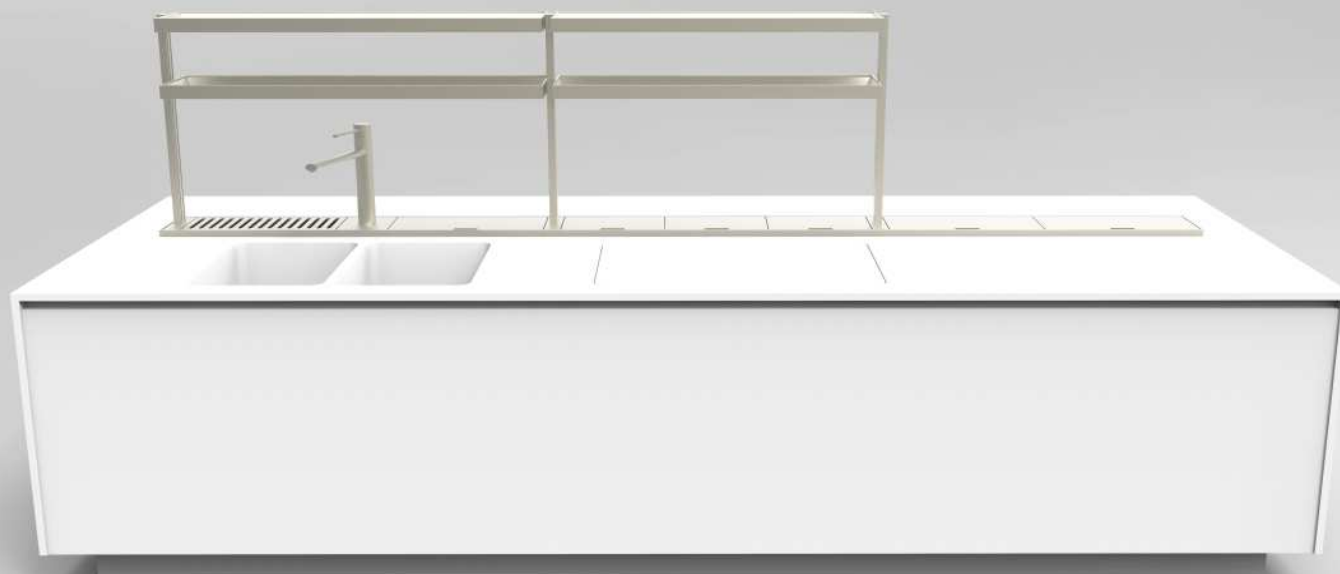

EASYSHELF

Anbientazione / Scene

EasyShelf è un sistema di mensole realizzato per essere applicato sui canali attrezzati EasyRack Kitchen. La componibilità modulare consente di realizzare composizioni che possono coprire tutte le misure dei canali EasyRack a partire dalla lunghezza di 750mm fino a 3000mm.

EasyShelf is a shelving system built for being affix on EasyRack Kitchen fitted frames. The modularity allows to realize compositions that can cover all the EasyRack frame's measures, from the length of 750mm to 3000mm.

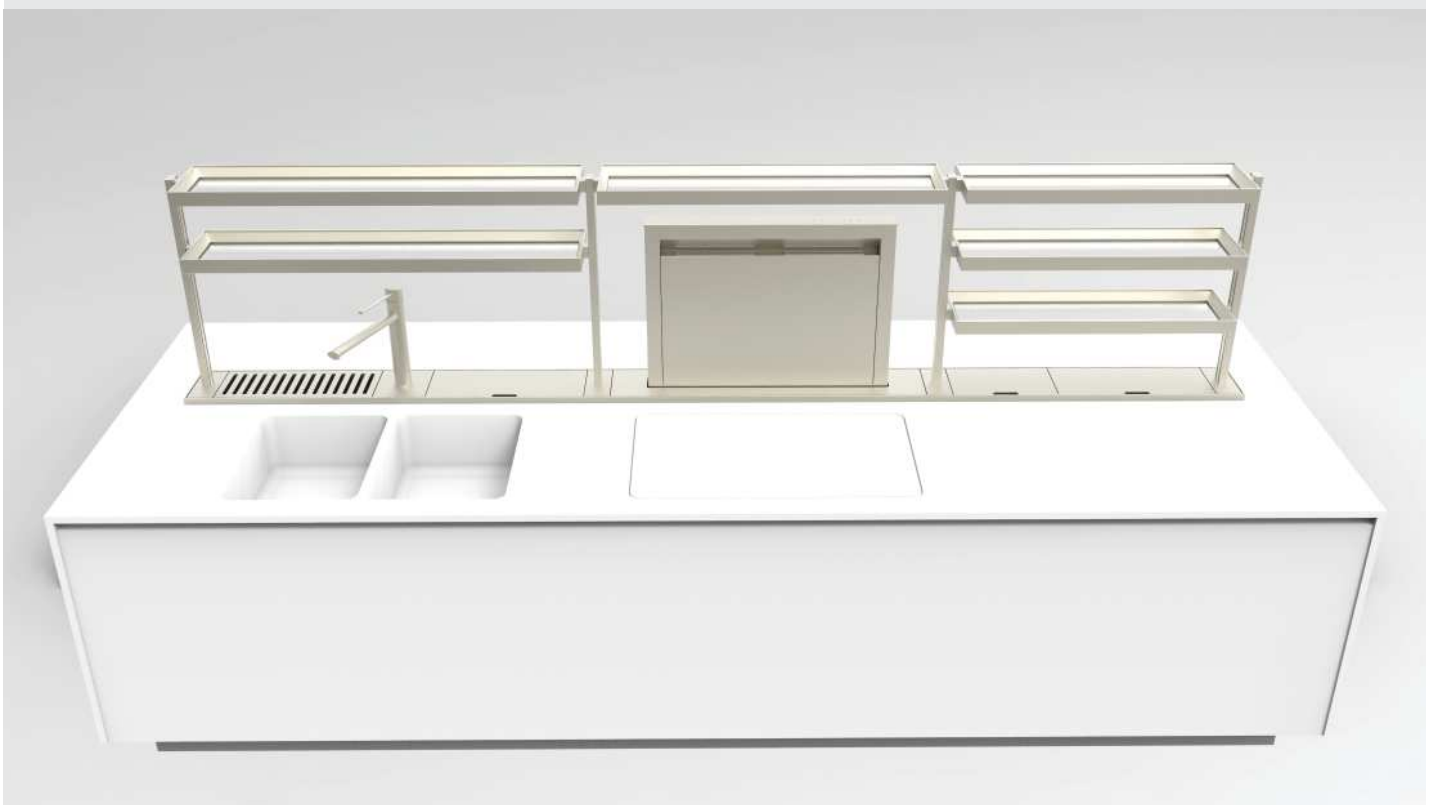

EASYSHELF

Ambientazione / Scene

EasyShelf può svilupparsi su tutta la lunghezza del canale oppure solo su una parte; a destra, a sinistra o al centro. Sono disponibili 2 altezze e 5 misure di mensole. Le mensole possono integrare un sistema di illuminazione a Led.

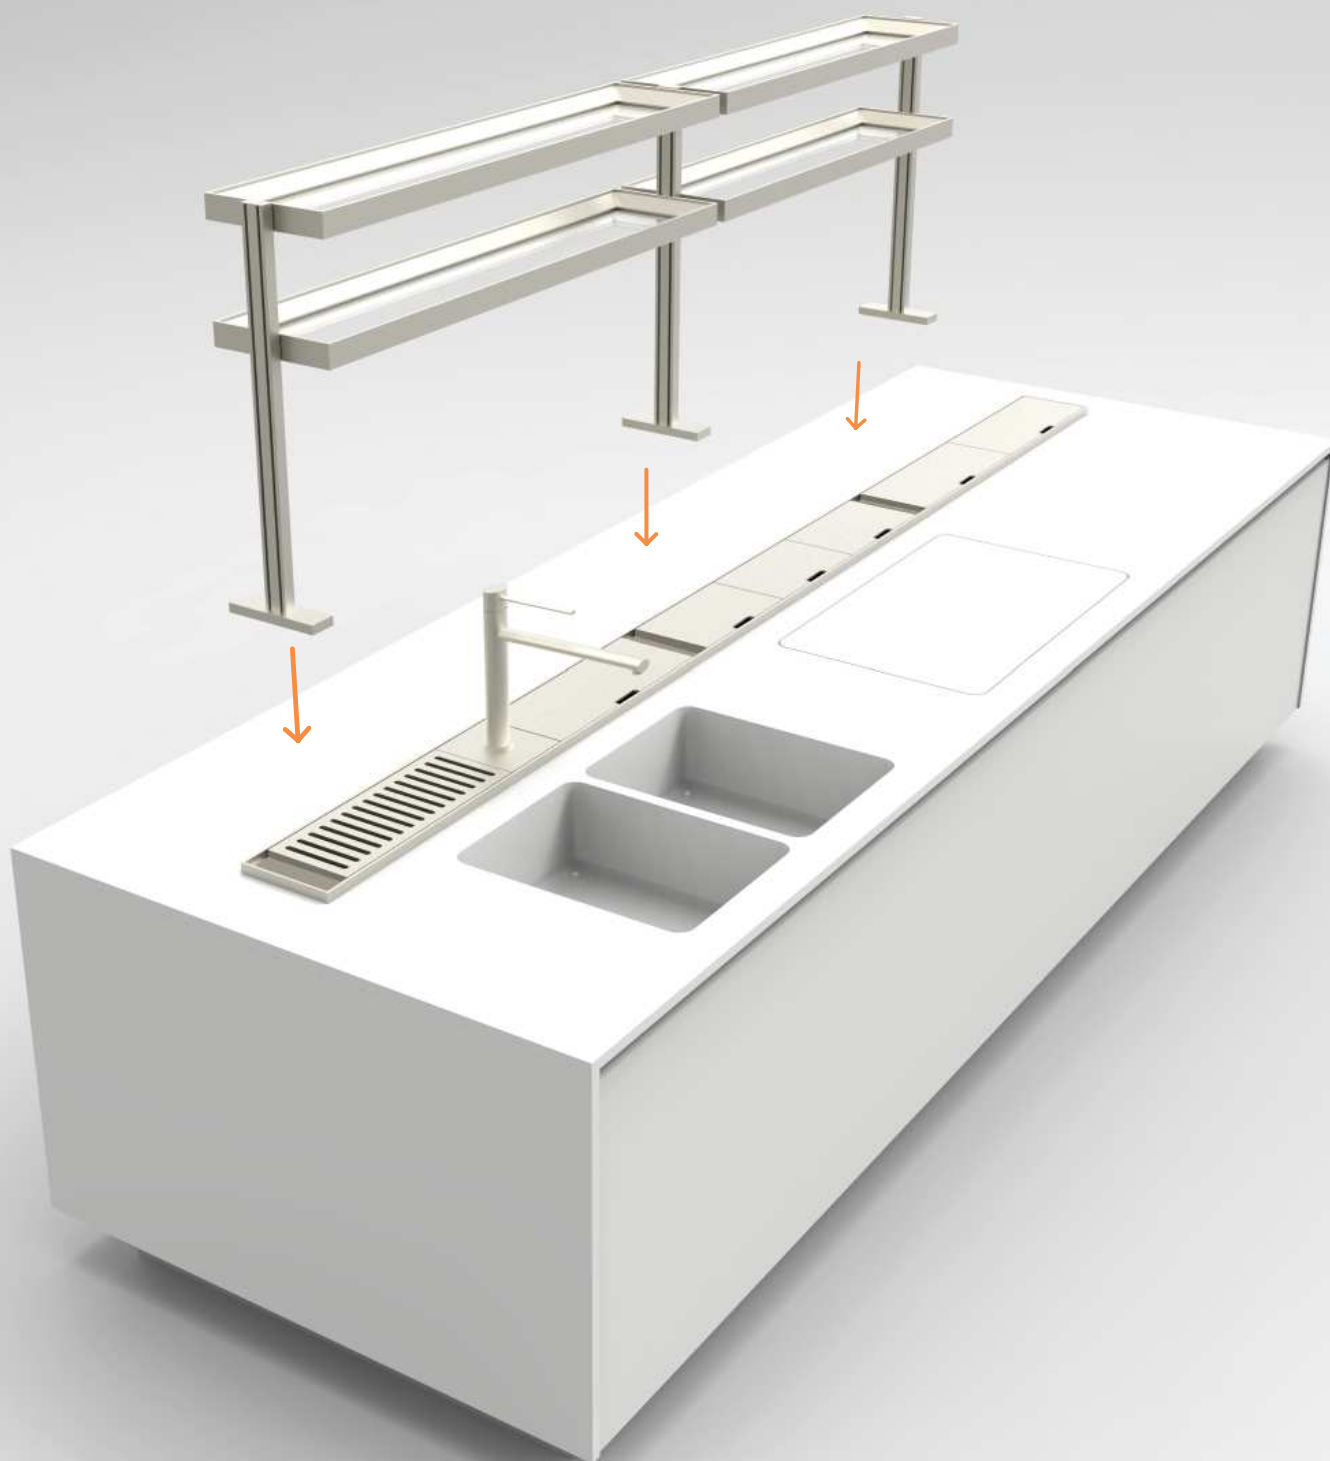

EasyShelf can develop over the entire length of the frame or only over one part; on the right, on the left or in the middle. There are 2 kinds of heights and 5 shelves measures. The shelves can incorporate a LED lighting system.

EASYSHELF

Anbientazione / Scene

EasyShelf si colloca in modo semplice sui canali EasyRack Kitchen grazie a delle basette di fissaggio già predisposte sul canale.
EasyShelf fits easily on EasyRack Kitchen frames thanks to fastening plates already prepared on the frame

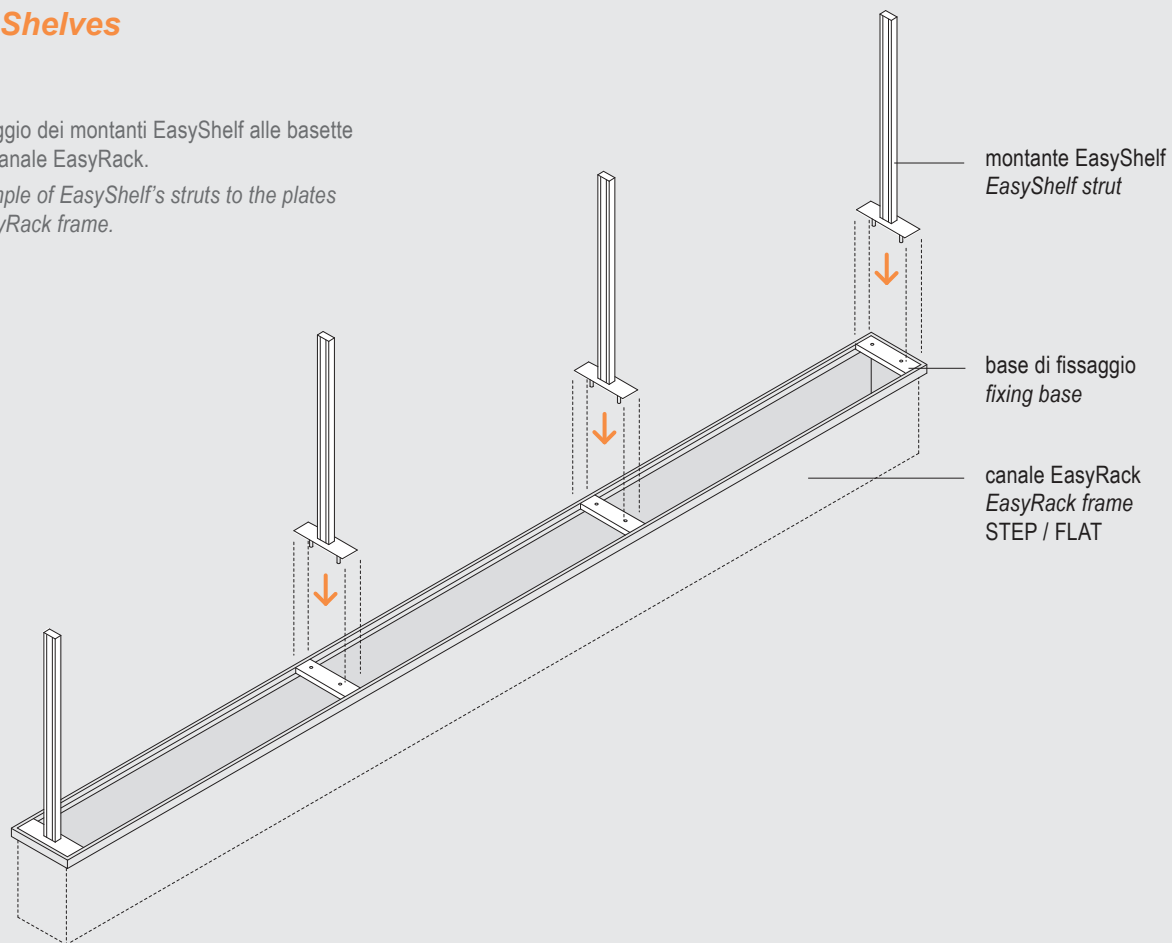

EASYSHELF

Abaco composizioni ALL / ALL Compositions index

Rappresentazione del sistema montato sui canali EasyRack Kitchen della stessa misura della composizione EasyShelf.

Per alcune misure di canali EasyRack è possibile utilizzare differenti composizioni EasyShelf.

Lo spazio che rimane tra le basi di appoggio e i montanti EasyShelf rispetta la modularità degli accessori EasyRack.

E' possibile montare le composizioni proposte anche su misure più lunghe di canali STEP o FLAT, in questo caso occorre decidere la posizione dove collocarla rispetto al canale EasyRack.

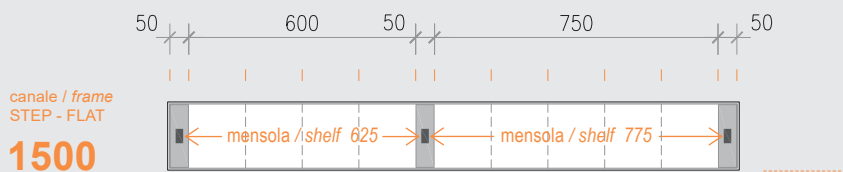

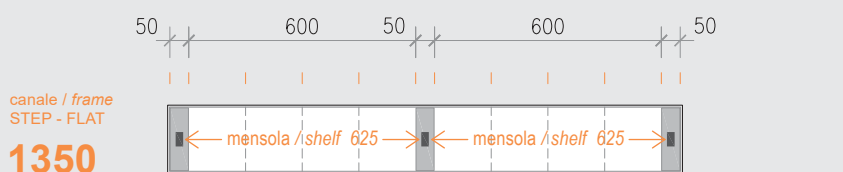

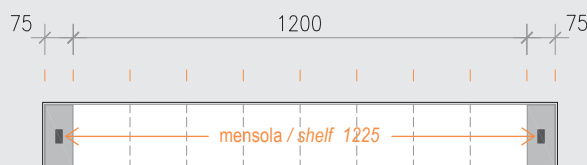

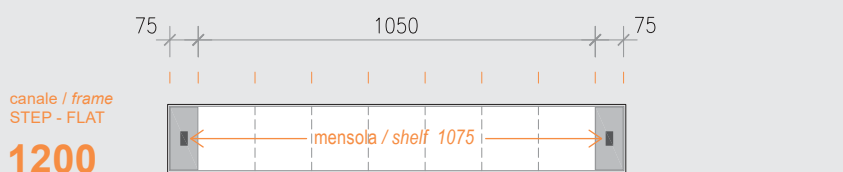

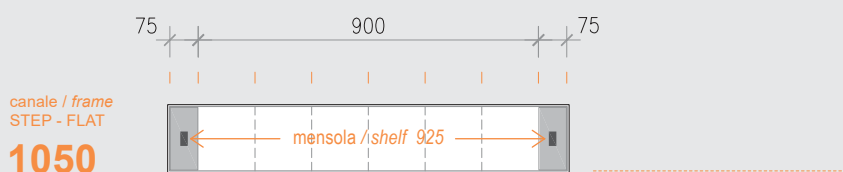

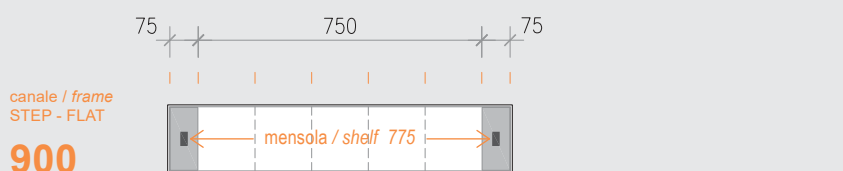

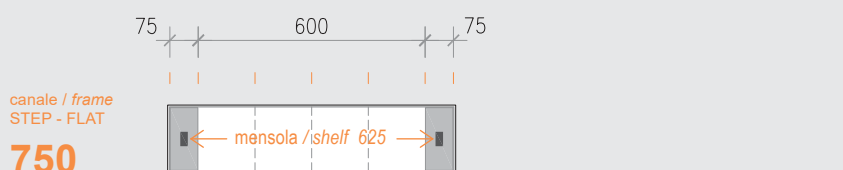

Le composizioni asimmetriche sono disponibili destre o sinistre.

Representation of the system mounted on EasyRack Kitchen frames with same measure of EasyShelf's composition.

For some of EasyRack frame's measures it is possible to use different EasyShelf's composition.

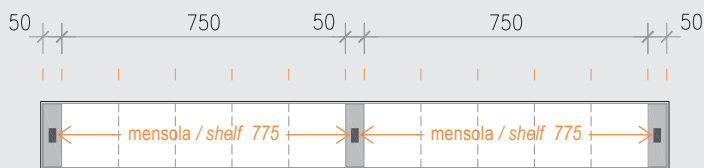

The space between the supports bases and EasyShelf's strut respects the modularity of EasyRack's accessorizes. It is possible mount the proposals compositions also on longer measures of STEP or FLAT frames. In this case, it will be necessary to decide the placement position respect to EasyRack frame.

The asymmetrical compositions are available right or left.
